### Abstract:

There are different types of astrology methods to know about the profession in one's horoscope. The purpose of my study is to explain how to determine one's career based on the rules given in the Birugu nandi Nadi method by late astrologer and discoverer of Birugu nandi Nadi system Mr. RG Rao.

**Key Words:** Sun, Moon, Mars, Mercury, Jupiter, Venus, Saturn, Raghu, Ketu Retrograde, Interchange, Inimical, Friendly.

### Introduction:

Saturn is the main planet for knowing one's profession in Birugu Nandi Nadi system. One's profession is determined by the Saturn is placed in the Rasi Saturn's Rasi 5, 9, 2, 12 and 3, 7, 11 to Saturn. Based on this, five rules have been developed based on the rules given by Mr. RG Rao and this article explains how one's career is based on those five rules. This article explains rules number 1 and rule number two and also gives horoscopes of working persons based on those rules and their interpretations. Saturn is the Karaka planet that represents career in the horoscopes of both male and female in Birugu Nandi Nadi method. Basic Rules for Determining Career in Birugu Nandi Nadi Method

### Rule 1:

The career of the sign in which Saturn is located, the career of the lord of the zodiac, the career of the planet conjoined with Saturn in the same sign, the career of the planet sitting in the 5th and 9th to Saturn and the career related to the career of the planets in the second and twelfth signs for the sign Saturn is in.

### Explanation:

Planets in the fifth and ninth of Saturn's sign run in the same zodiac philosophy. So one's career should be told by keeping the planets in the fifth and ninth in the same sign with Saturn. The planet in the 12th to Saturn will move towards Saturn. Saturn will move towards the planet in his second house. So Saturn in the second and twelfth houses will have careers related to planetary action.

### Rule 2:

Saturn's sign will be related to planets in 3rd, 7th and 11th.

### Explanation:

Opposite to the sign in which Saturn is placed is the 7th sign. Trine signs for the 7th sign are the 11th and 3rd signs. So Saturn will have a career related to planets in three seventh and eleventh signs.
