Gocharam:

Gocharam is a current planetary transit. Gocharam of the planets is determined from the natal moon sign. Gocharam should also be analyzed along with the Dasa and antardasa predictions. The Gocharam ortransists of Jupiter, Saturn are extremely important. If the Dasa and antardasa are not favorable, but if the Jupiter and Saturn transits are favorable for entire year, then the

person gets completely protected that year. Gocharam of mercury is very important for predicting the Stock Market trends. Mercury normally retrogrades three times in a year. Mercury retrograde can create lot of turbulence and downward trend in the stock market. However, when it gets combust during the retrogression, the effects of the retrograde will diminish. In other words, the market tends to get better. When the mercury is out of retrograde, the markets normally stabilize. If a horoscope is analyzed with Gochara transit of planets along with the Dasa and antardasa, the predictions will be more accurate. Here are some examples: If a person is struggling for a job and dasa and antardasa are moderately favorable, then look if the Sun is placed in third, sixth, tenth, or eleventh houses in the Gochara and aspected by Jupiter the person will definitely get a job. Similarly, Jupiter or Rahu in twelfth house will easily give foreign travel during that year.

Sometimes, a planet in the Gochara transit may not be able to give full benefic influence, in spite of transiting a favorable house in Gochara. This is due to obstruction of some other planet. This is called Gochara Vedha. The Gochara Vedha can diminish the positive effects of a particular planet during that transit. For example, when Jupiter is transiting the second house, he gives very favorable results, but there is some other planet in the twelfth house from the natal moon, then positive effects of Jupiter's second house transit from the natal moon are diminished. The extent, to which the positive effects can be reduced, varies from a person to person based on the Karmas. So, if there are two people A and B with the same Rasi, and Jupiter is transiting the second house in Gochara. If there is a planet in twelfth house causing Vedha, both the Person A and B will not get the 100% results of Jupiter's benefic transit in second house.
