### Abstract:

The most powerful and first ranking subh grah Jupiter planet plays an important role in either giving blessings or teaching a lesson to humans. This jupiter planet brings wealth and prosperity to people not only by its planetary position but also by its aspects to other planets. So it's an opportunity for us human beings to know all the positive impact caused by this subh grah on us.

### Introduction:

In this article we are going to discuss the characteristics of Jupiter planet, its role in various signs by birth and during transitions and there by knowing the yogas caused by its combination with other planets in the solar system.

### Planet Jupiter:

Planet Jupiter is the Prime Minister of the Solar System. Rasi Sign- horse with human head carrying bow in hands, two fishes facing opposite to each other. He is the protector and most wise, intelligent among all planets. Jupiter in Vedic astrology is considered to be the most benevolent of all planets, thus naturally associated with luck, fortune, and wealth. Its benefic presence can turn rags into riches. It's a big, beautiful and bright planet. Like an emperor it has a large number of subject moons that orbit around it. Jupiter represents everything to do with expansion, optimism and benevolence. Like a king he dispenses his power and favours to those around him. Jupiter in astrology is considered to be the second most powerful planet. It is also called the Devaguru or Brishaspti. The planet itself is the biggest in the solar system and it also has a great impact in a person's life. The power of Jupiter in astrology can make you rich overnight. The planet is responsible for knowledge, dedication and wisdom. It also reveals the spiritual side of a person. Jupiter in Indian astrology holds great significance. Also, it withholds utter importance in the birth chart of a person. It is closely linked to the kids and wealth. This is one of the reasons it is called the signification of children and wealth. If Jupiter is beneficial then it can bestow you with all the riches. The native is likely to be blessed with offspring, wealth and wisdom. However, if Jupiter is malefic or weak then it can create problems in life. It can have the opposite effect and a person may be devoid of wealth, wisdom or offspring. A person can also get disrepute in society.

Jupiter takes 13 months to orbit one zodiac sign and 12 years to orbit the whole zodiac. The friendly planets of Jupiter are Sun, Moon, and Mars. The enemy planets are Mercury & Venus, and it's neutral towards Saturn & Rahu. The color associated with planet Jupiter is Yellow, and the precious stone is Yellow Sapphire. Ruler of Sagittarius and Pisces. Jupiter rules over Sagittarius and is co ruler of Pisces. With Sagittarius the optimism of Jupiter is translated often into a positive personality always searching over the horizon for an expansion in faith and knowledge and challenge. With Pisces, the spirituality of Jupiter leads to an understanding and sympathy for the different races and faiths on the planet. Once the inner planets have been understood and personalised, the individual can now deal with collective issues and not lose themselves in the process. For this reason, Jupiter is considered less of a personal planet than a planet to do with how we relate to the society we find ourselves in. It is however far closer than the three outer planets which are known as transpersonal planets and have an influence over whole generations.
